

Jun Liao

Assistant Project Manager | Software Engineer | AI & Automation

(407) 284-8519 · junhongliao.com · linkedin.com/in/junhongliao

Construction experience

CVM Construction Corp.

2026 – Present

Assistant Project Manager · New York, NY

- Coordinate trades, tenant access and material follow-through across three occupied multifamily rehabilitation projects.
- Track RFIs, submittals, design responses and fabrication lead times.
- Prepare change-order packages and reconcile scope against drawings, proposals and correspondence.

AI for contractors

Best Day AI

2026

Founder · New York, NY

- Built an AI assistant and run it on my own live jobs. It reads the project emails and contracts, tracks RFIs and submittals, and drafts the follow-ups for my review.
- When a job runs late, I text it one question and get back a dated timeline of the emails behind each delay, linked to the originals, with anything that hurts our case flagged.

Software experience

Harness Technologies

2025 – 2026

Founder · New York, NY

- Built and launched eight iOS and web applications, from requirements through release; hired and directed two engineers.

Ultimate Software / UKG

2023

Software Engineer, Backend

- Built production performance monitoring and reduced inefficient MongoDB queries by approximately 80% within three weeks.

Education and tools

Columbia University · Bachelor's degree, Computer Science

2025

Tools: Procore, Bluebeam Revu, Excel, Python, TypeScript, SQL
